The 1<sup>st</sup> group of Tsushima two girls made each self-introduction to MSR two girls, and vice versa.

And they communicated among the four students, asking some questions.

Next, the 2<sup>nd</sup> group of two boys and two girls made each self-introduction and communicated in the same way. They had an exciting conversation. Their questions were as follows.

### Questions from MSR

What subject do you like at school?

Have you ever eaten Thai food?

What do you want to be in the future? and so on

### Questions from Tsushima

How do you come to your school?

Have you ever been to Japan?

What Japanese food do you know? and so on

10:02 Finished

This is one small step for a student, but one giant leap for two schools. We hope that our two schools will promote a better mutual understanding between Thailand and Japan.
