## ◆PREPARATIONS

1 Items for performing our SKYPE communication :

iPad(4G), connection cables, portable projector, stationary screen, speakers, spotlights(NEW)

2 Comments

Late in September, the students at MSR are to take final term exams. We are grateful to MSR for giving us a chance to communicate on SKYPE this week.

## ◆SKYPE(Time is in Bangkok. +2 hours in Japan)

8:00 Call to MSR from Tsushima High Successfully connected

8:01-8:32 Communications on SKYPE(Deskwork)

The students of MSR explained to us about their 8-storied school buildings and the great municipal office in Bangkok, using some pictures. And they showed us some pictures of the Royal Palace, Wat Phrakeaw, and the Chao Phraya River. Some students of Tsushima High said, "I've been there."

8:33-9:15 Communications on SKYPE (Fieldwork)

Due to the demands of MSR, four students of Tsushima High showed around Tsushima High, with their iPad in their hands. They left Kougakukan for their own classroom, their shoeboxes along the corridor, and the vending machines, followed by their teacher. They walked on, explaining about what PE lessons other students were taking. And they walked along to their bicycle-sheds, the Themis Statue(which is not easy to describe in detail), the tennis court, and finally the school gate. It is said that the area of our School Sites is the second largest in Aichi Prefecture. With rich greenery and vast school land area, Tsushima High keeps a good tradition of the values under which our school was originally founded. Our next SKYPE will be performed in November.
