10:10-11:10 Communications on SKYPE

MSR has 1,061 good students. On Sports Day, the students are divided into four groups, which color is blue, pink, green, and orange. We watched the beautiful dancing performance of each group. Actually, their marching band had walked in a parade along the Taksin Road(main street). And at MSR's schoolyard, their traditional ethnic dance had been performed solemnly and formally. We can now see nice pictures of their performance by the kindness of Ms. Noi

It seems that each color is to a certain degree associated with some characters of the animated films or movies, such as "Alice in Wonderland", "Lion King" and so on. Thankfully, Ms. Noi sent us some good pictures, which showed us MSR students form an orderly line, wearing each color's uniform. It was beautiful and proper. It's a pity that we didn't have time to watch their volleyball games.
