

2020 4th SKYPE between MSR and Tsushima High

December 7th, 2020. 9:00-10:30(11:00-12:30 in Japan)

In this SKYPE we enjoyed interacting a lot with MSR.

① How is the weather today? → Are you thirsty in such a dry season? → What kind of drink is served at your school lunch? → How much is your PET bottle(water 500ml) in Thailand? → How about your PET bottle(cola or juice 500ml)? → Do you drink the tap water in Thailand?

In Japan, the tap water is drinkable. It is very convenient. But the price of PET bottle(water) is as high as that of cola or juice.

PET bottle 500ml	Thailand	Japan
water	7 THB	43 THB(150 yen)
cola or juice	15 THB	43 THB(150 yen)

② Do you have any grandparents? → (It's a pity that both of them passed away) Do you live with them? Or is your house two-household? → Japan is really an aging society. The population is aging rapidly. In fact, there are single-living old people around our houses. Fortunately, our city has a home-visit nursing care system. Do you have such a system or service in Thailand? Or do you have a home for elderly people?

③ What are we doing against Covid-19 in our schools? Now, MSR and Tsushima High take good measures to prevent the spread of Covid-19, as shown to the right.

	M S R	Tsushima
masks	necessary	necessary
air ventilation	OK	OK
face-to-face at lunch	NG	NG
social distance	1 m	2 m

- Students and teachers always wear masks.
- They ventilate the rooms by opening the windows
- They don't eat face-to-face at lunch.
- They keep their social distance between or among themselves.

In this SKYPE, MSR students, who are interested in Japanese greetings, repeated after Tsushima students, "Ohayou gozaimasu(Good morning)", "Kon-nichiwa(Good afternoon)", "Kon-banwa(Good evening), "Oyasuminasai(Good night). We enjoyed ourselves greatly.

The next SKYPE is to be held on Wednesday next week. We are looking forward to it.
