

# Online Meeting between JICA and Tsushima HS 9/14/2564

9:00~10:30 (in BKK)

There were 12 members attending this online meeting between JICA and Tsushima HS. The twelve members were three members from JICA and nine members from Tsushima HS. JICA members were Mr. MORITA(Chief Representative, JICA Thailand Office), Earn, Kanun(Program Officers). Tsushima HS members were a principal, a teacher/coordinator, and seven students.

After each brief self-introduction, Earn and Kanun gave a presentation about JICA to Tsushima HS. The presentation was about JICA's activities in Thailand, and major assistance schemes, and future perspective on JICA Thailand Office. Some of the issues were rather difficult to understand. However, the students seemed to be interested in "KOSEN" program, which is a unique Japanese higher education system to be introduced for the first time in Thailand. Also, they paid more attention to "Covid-19 JICA Cooperation".

Next, Tsushima HS gave a presentation introducing their school. They stressed three points that their school is the splendid spot where Tradition and Innovation meet, that their school is the superb stage where Pen and Sword meet, and that their school is the significant school where Students and Teachers meet the expectations of the parents and citizens.

The Q&A session afterwards was active and lively, so all the people had a great time. Especially for the students, the time would be some part of their inspiration.

Finally, we are very glad to have had this opportunity thanks to the kindness of Mr. MORITA, Earn, and Kanun. We hope Thailand will remain one of Japan's best partners and JICA will play a more important role in strengthening the economic, social, and cultural Thai-Japan partnership.
